[linkedin.com/in/saifalramahi](https://www.linkedin.com/in/saifalramahi)
Birmingham, UK

Data engineer and cloud solutions developer with 3+ years of experience designing and deploying data-driven platforms in enterprise environments. Currently pursuing a PhD in building automation and semantic ontologies, while teaching postgraduate modules in sustainable construction. Independently build full-stack web platforms, AI agents, and RAG-enabled chatbots for early-stage ventures and personal projects. Proven ability to translate complex technical challenges into scalable, user-focused solutions across academic, enterprise, and start-up settings.

EXPERIENCE

VISITING LECTURER

Birmingham City University

July 2025 - Present
